Choose your override username and password:

Username: _____ must be at least 5 characters

Password: _____ must be at least 6 characters and include 1 number.

About overrides. If a user attempts to go to a website that is blocked, there will be a box that appears on the screen, asking for a username and a password. Entering the username and password will unlock ALL FILTERING ON THAT COMPUTER for 30 minutes.

Library System: _____

Director's Signature _____ Date: _____

Fax the category list, with a username and password clearly printed, and the director's signature and date to 601-354-4181 attention: Justin.

If you have any questions about filtering, please call the MLC helpdesk. One username and password is issued for each library system. You will have to distribute it to your branch librarians in order for them to be able to override filtering.
